STANLEY GOES AFTER DAUGHERTY HARD

Kentucky Senator Says Harding Is Shielding Official Who Cannot Shield Self

(By Associated Press)
Washington, June 3.—President Harding was charged today in the Senate by Senator Stanley Democrat, of Kentucky, with attempting to stifle, if not muzzle, the press, to prevent publication of attacks on Attorney General Daugherty and with making a desperate attempt to shield a man who dares not shield himself and to protect a man who does not protect himself. In the course of his remarks, Stanley assailed Daugherty as a nefarious and crooked pardon broker, who makes it his business to deceive the president that men may plunder women in time of peace and rob the federal government in time of war.

Tough Luck, Pop!

Petersburg, Va., June 3.—"I've been making whisky for 40 years, and this is the first time I knew there was any law again," said Henry Hogue, a venerable of the Smoke Hole district, located in Grant and Pendleton counties when he was visited by state police and arrested Friday. A native of the district proffered information to the troopers that "Old Man" Hogue was running a still and had done so ever since he could remember. Corporal Briner, who led the state policemen, said the episode was the beginning of the educational campaign in the Smoke Hole region.

Signora Linda, who has been with the Ratti family for 40 years watched at the death bed of the mother of Pius while he was absent in Poland, and after the death of her mistress retired to a convent in Milan. Upon his appointment as Cardinal, Pius quickly called her to govern his household, and after only seven months as a Cardinal, he was elected Pope.

Reception for Pastor and Wife at Centerville, Ohio

The Baptist church of Centerville, Ohio, continues to show its appreciation of its pastor, Rev. Edward N. Lawson, formerly of Madison county. The most recent exhibition of such was the gracious reception given on the evening of May 18th in honor of the pastor's wife who came on the field as a stranger to the congregation. A program was rendered which contained many humorous incidents related to the pastor's expense, but enjoyed, nevertheless. The greatest surprise of the evening was the general shower of everything useful in the pantry. Every thing was fully appreciated by the pastor and wife. Centerville has a noble band of believers. No church appreciates the efforts of her pastor more than Centerville and the pastor knows how to appreciate such a church.

NEW GYMNASIUM FOR NORMAL ATHLETES

Board of Regents Takes Steps To Secure Needed Building—Faculty Is Re-elected

Students of Eastern Kentucky State Normal School and others who are interested in athletics at the big institution were greatly pleased with the action of the Board of Regents at their recent meeting when it was decided to erect a temporary gymnasium out of the savings effected by the management, as the Normal is free of all debt. The temporary gym will be a large and commodious structure, and the idea is when a permanent gym is secured to convert this structure into a dormitory.
At the meeting of the board, the chairman and all the regents were present. The two newly appointed regents were sworn in. Senator H. H. Brock was elected vice chairman of the board. Judge J. M. Cammack was re-elected secretary and Paul Burman was re-elected treasurer. All these selections were unanimous. All the present faculty was reduced; the salaries of a few recently elected and younger teachers were slightly increased, as they had made good.
The school has now the largest attendance in its history, 35 per cent larger than last year and at least 100 students have come and applied for admission during the past several weeks, and being unable to get rooms in either the city or the dormitories, have returned home. Thirty-six students came last week and got rooms in the city.

WORK ON GYMNASIUM WILL BEGIN IN JULY

(From Eastern Progress)
In August, 1920, the gymnasium was burned by an incendiary. Since that time, the classes in physical education have been largely out-of-doors except where the classes have been helped out by the gymnasium of the Madison High School. It had been hoped before the meeting of the last legislature that money would be appropriated for building a health building, including a gymnasium, but that hope was not fulfilled. At a meeting of the Board of Regents last Saturday, an appropriation of \$8,500 was made for the purpose of building a gymnasium. The building will be built of wood and will be the best that can be made for that money. It will be located near the place where the old gymnasium was located on the campus. It will be built in such a way that it can be used for some other purpose after a permanent gymnasium has been built.
C. C. and E. A. Weber, architects, of Cincinnati, O., will prepare the plans immediately and it is hoped that work will be started on the building by the first of July, as it is very badly needed indeed.

DROP FIGHT TO STOP MATHILDE'S MARRIAGE

(By Associated Press)
Chicago, June 3.—The court fight against Mathilde McCormick's international marriage to Max Oser, ended abruptly today when the girl's mother withdrew her petition for a restraining order to prevent the wedding. Judge Horner, however, made it plain he would expect Mr. McCormick to execute his trust "as guardian and parent" and would expect him to consider Mrs. McCormick's previous statement which was interpreted as a warning that McCormick should carefully consider his attitude toward Mathilde's marriage to Oser, as she is 17 and he 44.

O. Hughes, a farmer who has made money farming and knows how to tell other farmers how to make money.
All women are urged to come. The speakers have something to say to them.
How to make money and how to save money can be seen on the Berea soil experiment field. Come and see what kind of fertilizer produces the biggest yield. Come and see what time does for production. Take a day, my friend Farmer, and study your problems and how best to handle them. It will do us all good to meet, eat and visit together for one day. Plan for this meeting and let it be one day in your program of work.

Richmond Boys Make Good

Richmond boys continue to "make good" on the diamond wherever they play. "Pete" Hise has been playing short for Winchester in the Blue Grass League since his return home, and he has the fans there on their toes because of his brilliant work at almost every game. Jim Park is now pitching for Lexington and doing his usual fine work. Nothing has been heard from Sam Reid, since he was sent to Spartanburg, S. C., in the South Atlantic League, but his friends are confident he will make good there and soon be up in faster company.

(By Associated Press)
Chicago, June 3.—A railroad strike threatened the nation today as railway unions awaited impending slash by Federal Railway Labor Board in wages of additional classes of employees other than train service men. B. M. Jewell, head of the Railway Employees Department of the American Federation of Labor, declared wage reductions probably would result in a strike following next Tuesday's conference of railroad chiefs at Cincinnati.

Widely circulated reports indicated the decision sought by the carriers for 500,000 shop men will be forthcoming today or early next week and that it will be somewhat less than cut announced last Sunday for maintenance-of-way laborers which averaged about 10 per cent.

NOTICE

Upon investigation, I find that some one has been guilty of depositing the refuse from some one of the poultry houses in Richmond out on the Kavanaugh Lane. This lane is directly on the water shed of the Richmond Water and Light Co. The water shed or lake is where the people of Richmond get their drinking and cooking water. It will be impossible to keep the water clean and pure for such use if this practice is kept up.
This will give the public final notice; if it happens again warrants will be sworn out and the guilty party prosecuted to the extent of the law.

1t Health Officer Madison Co.
